

Multi-day Workshop & Expo connecting Start-Ups with
Capital and Exposure

TheAtlantaBusinessProject.com

The Atlanta Business Project Start-Up Edition 2014 aims to boost Atlanta's local economy by way of 100 new businesses. We will do this by inviting 100 start-ups to apply for the opportunity to engage in an interactive 3 day workshop.

During this workshop:

- Attendees will learn from industry leaders in marketing and business formation
- Receive one-on-one business consulting
- Acquire LLC status
- Receive total branding package

These start-ups will be in an interactive environment and will feel the extra motivation by being among like minded individuals to move forward and finally start their successful business.

The Atlanta Business Project Start-Up Edition 2014 will also have an exhibition for all start-ups to present a preview of their products/services to Angel Investors, influential consumers and press.

This exhibition will be in the form of an expo with tables and booths for all business owners to set up.

THE LOCAL 5's

HYPER LOCAL

We would also like to celebrate other local businesses that have been successful for the last 5 years and those that are currently in their first 5 years. Since the first 5 years are the hardest we would like to congratulate these businesses by inviting them to participate in the expo portion of the event

The Local 5's will receive the much deserved exposure from influential consumers and press for their business and give it that extra boost it may need.

The Atlanta Business Project Start-Up Edition 2014 will be the ideal platform for start-ups to connect and collaborate and be well equipped to push the start button on their business ventures.
